

NIMT Admission Counsellor Incentive Guide

Effective Date: July 2026 | Version: 2.0

How Your Incentive Is Calculated

Every admission you close earns you an incentive. The final amount depends on four things:

1. **Which course** the student enrolled in
2. **How the lead reached us** (the source)
3. **Whether you scheduled and confirmed a campus visit**
4. **How many total admissions you close in the month** (your achievement multiplier)

Your projected earnings update live on your dashboard — check it anytime.

1. Course-Wise Base Incentive

Programme	Base Incentive
MBA	₹3,000
PGDM	₹3,000
BA LL.B	₹2,500
BBA	₹2,000
BCA	₹2,000
GNM	₹2,000
B.Ed (Greater Noida & Ghaziabad)	₹400 (this session only)
B.Ed (Kotputli)	No incentive (counts toward targets)
D.El.Ed	₹1,500
Other UG/PG	₹1,000
BPT	₹500
BMRIT	₹500
B.Sc Nursing	No incentive (counts toward targets)

2. Lead Source Percentage

Your incentive is adjusted based on how the lead was sourced. Higher effort = higher reward.

Lead Source	You Get
Self-generated (referral, personal networking, alumni)	100% of base
Institutional outreach (school visits, education fairs)	90% of base
Digital (website, Google/Meta ads, Shiksha, CollegeDunia, JustDial, WhatsApp, etc.)	80% of base
Walk-in (no prior scheduled visit)	50% of base

Consultant	No incentive
------------	--------------

What counts as a walk-in vs. a scheduled visit?

This is important — it directly affects your payout:

- **Full incentive (per source %):** You scheduled a campus visit **at least 2 hours before** the visit time, the student showed up, and you completed the visit in the system.
- **Walk-in rate (50%):** The student walked in without you having scheduled a visit, OR the visit was auto-scheduled by the system (Navya), OR you scheduled it less than 2 hours before.

Example: A lead came from Google Ads (digital = 80%). If you scheduled their visit yesterday for today and they came → you earn 80%. If they just walked in without a scheduled visit → you earn 50%, even though they came from Google Ads.

Tip: Always schedule the visit in the CRM when you confirm it with the student. This is the single biggest thing you can do to protect your incentive.

3. Monthly Achievement Multiplier

At the end of the month, your base incentives are multiplied based on how well you hit your targets. Achievement is the **lower** of your admission % and revenue %.

Achievement	Multiplier
Below 70%	No incentive for the month
70–89%	0.75x
90–99%	1.00x
100–109%	1.25x
110–124%	1.50x
125–149%	1.75x
150%+	2.00x

The multiplier applies only to the base course incentive. Speed bonus, token bonus, and volume bonus are paid as-is.

Your Monthly Targets

Designation	Admission Target	Revenue Target
Junior Counsellor	10	₹8,00,000
Counsellor	12	₹10,00,000
Senior Counsellor	15	₹13,00,000
Team Leader	As assigned	

Important: B.Sc Nursing and B.Ed Kotputli admissions pay ₹0 base incentive but they DO count toward your admission and revenue targets. Don't ignore these leads — they feed your multiplier.

4. Bonus Incentives

Token Bonus

- ₹100 per admission token collected
- One token bonus per lead (collecting a second token on the same lead doesn't earn extra)
- Paid with the monthly statement, not weekly
- If the token is refunded, the bonus is recovered

Speed Conversion Bonus

- Converted within **48 hours** of lead creation → ₹500
- Converted within **7 days** → ₹250
- Beyond 7 days → No speed bonus
- Not available on consultant leads

Monthly Volume Bonus

Only the highest slab you reach is paid:

Admissions in Month	Bonus
5	₹1,000
10	₹2,500
15	₹5,000
20	₹10,000
30+	₹20,000

Team Bonus

When your **entire campus** hits its target, every eligible counsellor gets:

Campus Achievement	Bonus per Counsellor
100%	₹3,000
120%	₹7,500
150%	₹15,000

You must be individually eligible (see below) to receive the team bonus.

5. Eligibility — What Can Disqualify You

You must meet **all** of these to receive any incentive for the month:

Gate	Requirement
Admission target	≥ 70% achieved
Revenue target	≥ 70% achieved
Attendance	≥ 95% (entered by HR)
No disciplinary action	No misconduct during the month

Daily KPIs (fresh calls, follow-ups, WhatsApp messages, visits, applications) are tracked and visible on your dashboard and your monthly statement, but they are **advisory** — they won't block your incentive. They help your admission head understand your work pattern.

If you're ineligible, your statement will show exactly which gate you failed and the gross amount you would have earned — so you always know what's at stake.

6. Worked Examples

Example 1 — MBA, Self-Generated, 125% Achievement

- Course: MBA → ₹3,000 base
- Source: Self-generated → 100%
- Scheduled visit completed → full rate
- Base = $₹3,000 \times 100\% = ₹3,000$
- Monthly achievement: 125% → 1.75x multiplier
- Incentive = $₹3,000 \times 1.75 = ₹5,250$
- Add: ₹500 speed bonus (converted in 48h) + ₹100 token = **₹5,850 total**

Example 2 — BBA, Digital Lead, Scheduled Visit, 110% Achievement

- Course: BBA → ₹2,000 base
- Source: Digital → 80% (scheduled visit exists)
- Base = $₹2,000 \times 80\% = ₹1,600$
- Achievement: 110% → 1.50x
- Incentive = $₹1,600 \times 1.50 = ₹2,400$
- Add: ₹250 speed bonus + ₹100 token = **₹2,750 total**

Example 3 — BBA, Digital Lead, Walk-in (No Scheduled Visit), 110% Achievement

- Same as Example 2, but the student walked in without a scheduled visit
- Source capped at 50% (walk-in treatment)
- Base = $₹2,000 \times 50\% = ₹1,000$
- Incentive = $₹1,000 \times 1.50 = ₹1,500$
- Difference from Example 2: **₹900 less** — just because no visit was scheduled

Example 4 — BA LL.B, Walk-in, 95% Achievement

- Course: BA LL.B → ₹2,500 base
- Walk-in → 50%
- Base = $₹2,500 \times 50\% = ₹1,250$
- Achievement: 95% → 1.00x
- Incentive = **₹1,250** + ₹100 token = **₹1,350 total**

Example 5 — B.Sc Nursing

- No incentive payable regardless of source or performance
- But the admission counts toward your target → helps your multiplier on other courses

Example 6 — Student Withdraws

- You earned ₹5,850 on an MBA admission
- Student withdraws with a fee refund within 45 days
- **Entire ₹5,850 is recovered** from your next incentive payment
- After 45 days, the incentive is safe

7. What You See on Your Dashboard

Morning Brief

Every time you open your dashboard, you'll see:

- 🔥 **Hot leads** — priority-interested leads waiting for action
- ⌚ **SLA breaches** — new leads you haven't contacted (respond within 10 minutes)

- 💰 **Closest to money** — leads at token-paid or offer-sent stage
- 📅 **Today's follow-ups** and overdue count
- 🏠 **Today's visits** and post-visit pending
- ✈️ **Applications in flight**
- Yesterday's KPI scorecard

Incentive Widget

- Your **projected payout** for the month (updates live)
- Achievement progress bar with the next multiplier band ("2 more admissions → 1.5x")
- How much extra you'd earn by hitting the next band
- Volume bonus proximity
- Eligibility gate checklist (green/red/pending)

8. Visit Center — Your Daily Tool

The **Visit Center** is where you manage visitors:

- **Record Walk-in** button (also in the top navbar — use it from any page)
- **On Campus** tab — see who's currently checked in, elapsed time, and quick actions:
 - Send a payment link
 - Create a fee proposal
 - Record a token payment
 - Check the visitor out when they leave
- **Today & Upcoming** — check visitors in, mark no-shows, complete visits
- **Post-Visit Queue** — follow up after visits

Check-in / Check-out Rules

- When a visitor arrives, **check them in** (or record a walk-in, which auto-checks-in)
- When they leave, **check them out**
- If you forget: the system auto-checks them out when you start calling another lead, or at 6 PM daily
- While a visitor is checked in, you'll be redirected to the Visit Center if you try to open another lead's page — check out your visitor first

9. Important Rules

Lead Ownership

- The lead belongs to whoever is assigned in the CRM
- Lead source **cannot be changed** after creation (only an Admission Head can change it)
- All changes are permanently recorded

CRM Compliance

You must record every interaction in the CRM:

- Every call and its outcome
- Every WhatsApp message
- Document uploads
- Visit status updates
- Counselling remarks

Failure to maintain CRM may result in rejection of incentives.

What Will Forfeit Your Incentive

- Fake or duplicate admissions
- Fraudulent documentation

- Manipulating CRM records
- False lead ownership claims
- Concealing cancellations
- Misconduct with students or parents

10. Payment Timeline

1. Admission happens → qualifying fee is realized → incentive **accrues** (you can see it on your dashboard)
2. Month ends → system computes your achievement, multiplier, eligibility → **statement generated**
3. Admission Head reviews and **approves** the statement
4. Accounts processes **payout** with next month's salary
5. If a student withdraws within 45 days → incentive is **recovered** from your next payout

Quick Reference Card

Item	Amount / Rule
MBA/PGDM base	₹3,000
BBA/BCA/GNM base	₹2,000
BA LL.B base	₹2,500
B.Ed GN/GZ (this session)	₹400
D.El.Ed base	₹1,500
Other UG/PG base	₹1,000
Self-generated	100%
Digital (with scheduled visit)	80%
Walk-in / no scheduled visit	50%
Consultant	No incentive
Token bonus	₹100/token
Speed bonus (48h / 7d)	₹500 / ₹250
Minimum to qualify	70% admission + 70% revenue + 95% attendance
Clawback window	45 days
Best multiplier	2.00x at 150%+ achievement

For questions about your incentive calculation, check your dashboard first — every line item shows the full breakdown. For disputes, contact your Admission Head.

This guide reflects the incentive policy as implemented in UniOs. The decision of Management is final and binding.
